# GROUND CSI AVIATION

## No Aircraft = No Deportations

CSI Aviation hides behind their air ambulance work on social media but in reality is making a killing on running deportation flights to and from concentration camps around the US. They have been getting rich off deporting people since ICE was founded in the early 2000s, the company was founded and is still run by a republican politician (Allen Weh, as well as his family), and it maintains a deeply entrenched relationship with the current fascist government (advertising charter flights based on proximity to Mar-A-Lago, donating millions in exchange for millions in government contracts).

They have done unspeakable evils, including leaving a plane full of kidnapped Somali refugees handcuffed in their seats for 23 hours straight back in 2017. This is not a new evil. But they are ramping up activity. **As such, it is up to us to do whatever we can to disrupt their crimes against humanity.**

### TACTICS

Fuck up their shit. They have hangars in three states (addresses below). Take notes from the Los Angeles Uprising:

- Barricade and besiege them.

Take notes from Pal Action's Stop Elbit Campaign and ground the planes:

- Put paint in the engines.
- Cut the hydraulics.
- Fuck with the fuel tanks.

Redecorate their offices:

- Make it obvious to passerby and neighboring businesses alike that they have Nazis in their midst.
  - Paint, banner drops, pasteups...
- Make their offices unusable:
  - Grout the doors shut, put nails in the parking lot...

Flood the phones:

- Call the staff (numbers below). They clearly lack empathy, but perhaps they still have shame. So shame them. Dox them. Humiliate them. Make them pariahs in their neighborhoods.
- Call the corporate lines and waste their energy booking fake charters, reporting fake tech issues, etc. Office #: (505) 761-9000. Dispatch #: (833) 435-9274. Email [sales@csiaviation.com](mailto:sales@csiaviation.com)
- Report their officers to ICE. Use the Anne Frank tactic people use on republican lawmakers – say they're harboring her, waste their and ICE's time and give them a taste of their own medicine.

Get the word out:

- Track and publicize flight data (known aircraft tailnumbers below). Mapping their activity makes it easier to plan direct actions
